

Skilled

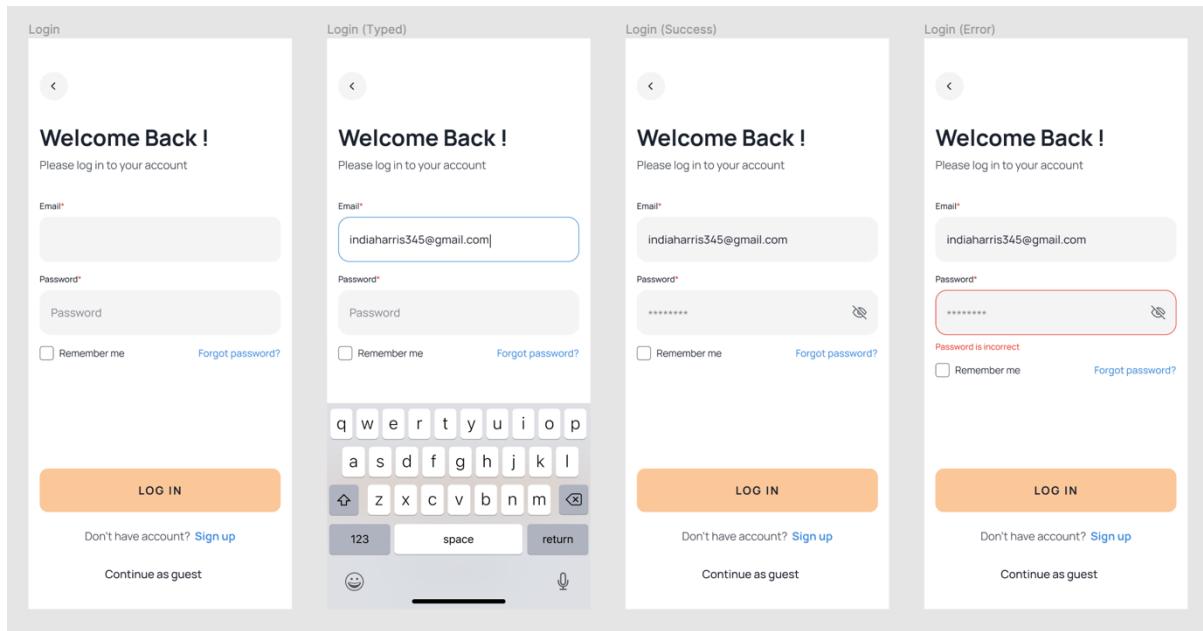

The skilled app has two sides:

User Part

The user part is where users can log in or create a new account to access the skilled user app.

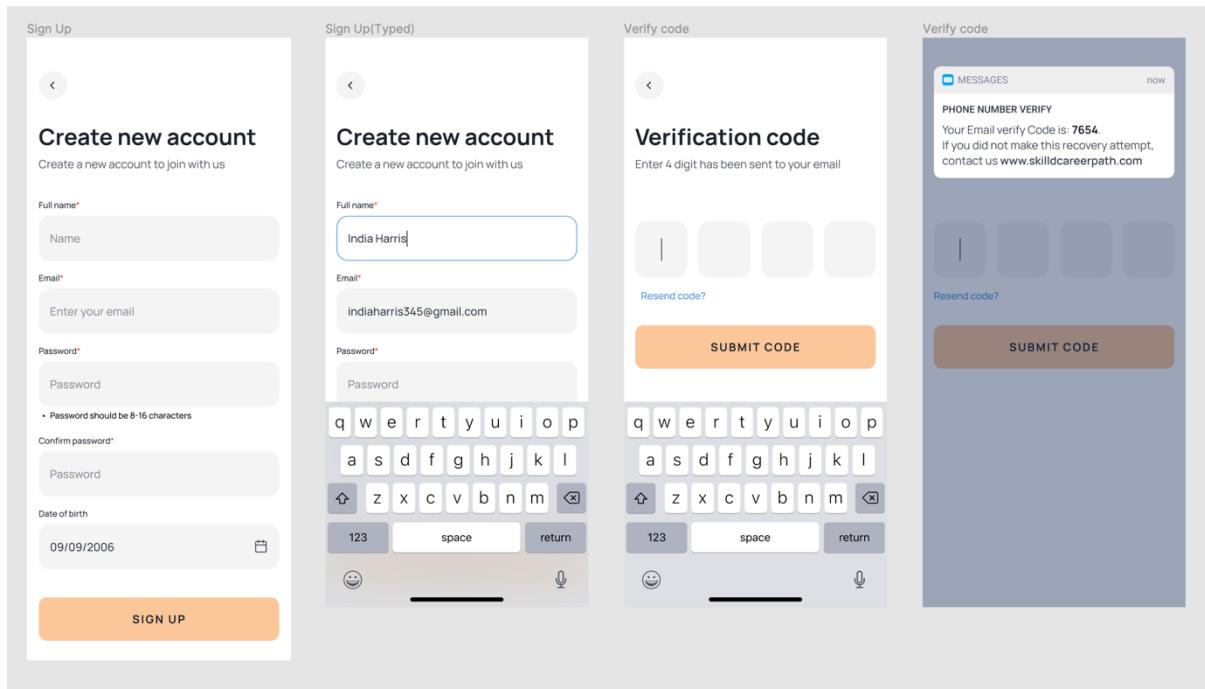

Login:

The user will need to enter the email and password associated with the skilled account and verify those credentials by adding a verification code sent to the registered email address.

Signup:

To create a new account user is required to enter basic information and verify the email that is being used to create a new account by entering a verification code sent to that email address.

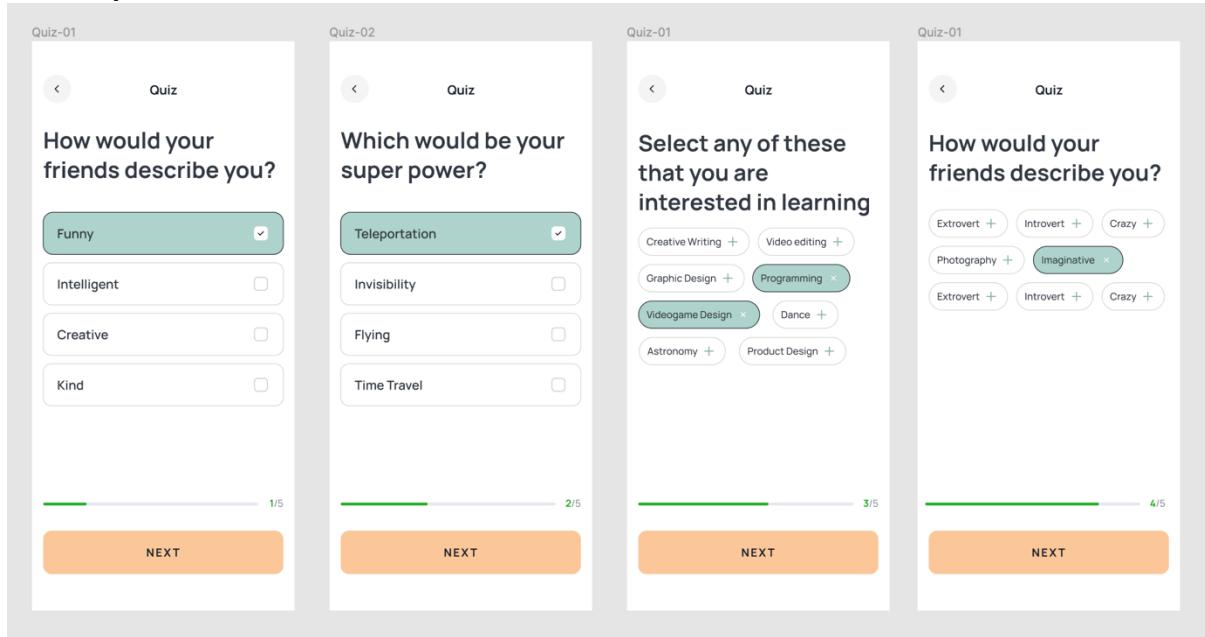

Quiz:

After registering User is required to take a quiz that quiz will help the application find the best career for the user.

The quiz result will let the user identify himself/herself what kind of person he/she is and which careers are best for the user along app will also recommend some best careers that best suit the user profile.

The users can get the answers to quizzes.

Users will be able to see and apply to the jobs related to the best career and also can search for new jobs.

Career Details

What's my career list

It is a list of careers you are interested in learning more about. Based off this list, Skilld's algorithm creates you a personalised feed (including podcasts, books, videos, competitions etc.) that allow you to learn about different industries, and how to get be successful in that job.

ADD TO CAREER LIST

< **BACK TO CAREER**

Feed:

Feed page where users can see different companies(related to the user’s interest)’ posts and videos.

The first screenshot shows a user profile with a video thumbnail and a call-to-action to watch it. Below is a section titled "You are an Inventor" with personality traits and core values. Buttons include "GO TO CAREERS LIST" and "SAVE & CONTINUE TO FEED".

The second screenshot shows a search bar and a list of recommended careers: Astrophysicist, Environmental Scientist, UI/UX Designer, Software Engineer, and Doctor. A progress indicator shows 4/5.

The third screenshot displays an "Answer List" with four questions: "How would your friends describe you?", "What is your super power?", "What steps do you take to remain calm under pressure?", and "Who is your role model?". Each question has an answer and a "EMAIL ME ANSWERS" button.

The fourth screenshot shows a confirmation message "Email Sent!" with a paper airplane icon, a note to check the inbox, and a "BACK TO RESULTS" button.

Discover:

On the discover page the user can search for new jobs and companies.

The first two screenshots show the "Find Out By Careers" feature. The left one shows "Career Details" for a UX Designer, including a job post from Snappdocs. The right one shows a list of "Available Jobs" from Snappdocs, including "Lead UX Designer" roles.

The third screenshot shows the "Help and support" section with a "Help & Support" form. It includes fields for Name*, Your name, Email Address*, and What you want to know*. A "SEND" button is at the bottom.

The fourth screenshot shows a similar "Help & Support" form with a "Contact Us" header, including fields for Name*, Your name, Email Address*, and What you want to know*. It also features a message input field and a "SEND" button.

Martin Trek Monday at 2.00 AM

Skillshare is really great. Gotta recommend the intro to graphic design class from William Petersborough. Did it back in high school and now I'm doing my graphic design degree haha. Good stuff!

Business Part

Login and Signup:

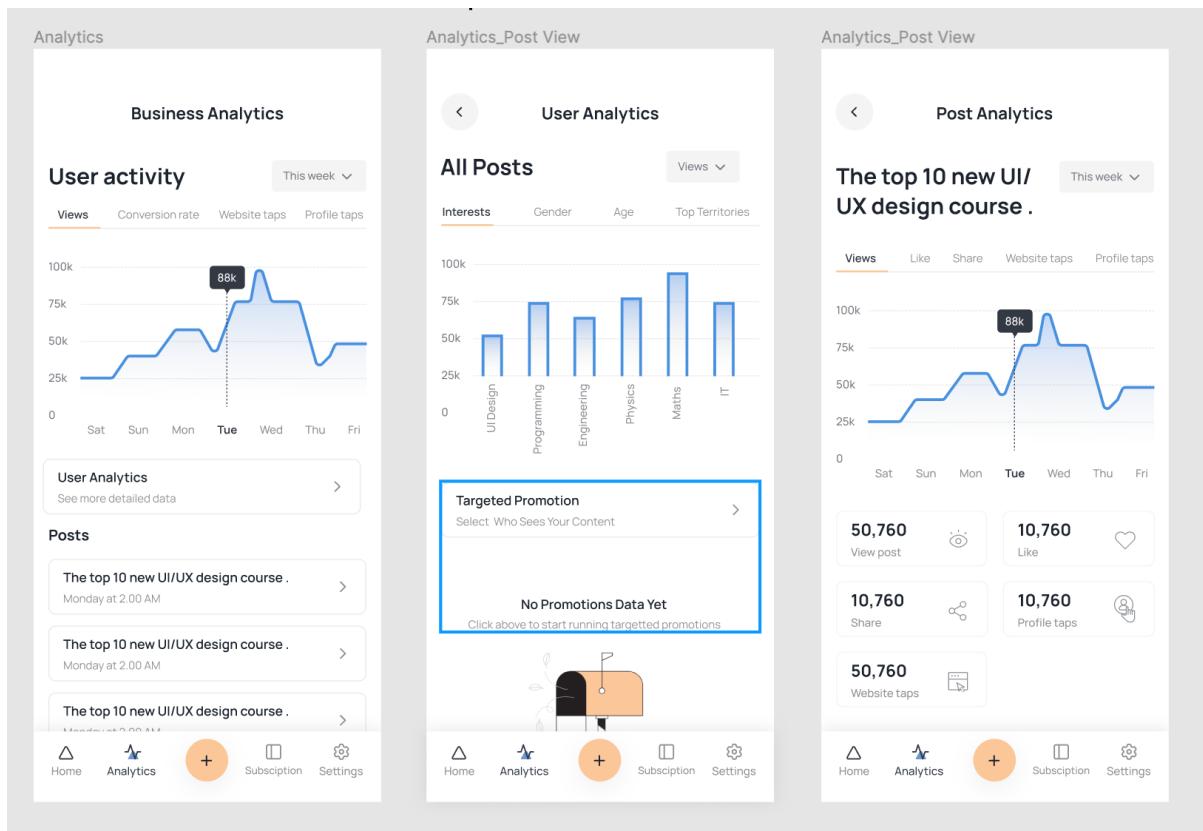

Login and Signup for the business part are the same as the user's login and signup procedure just with some alterations.

Feed:

The feed part is the same as the user's feed, the only difference is that users will see a feed of multiple companies while the business part can see their own posts and can navigate to edit that post from each post.

Analytics:

The business has an analytics part where business owners/managers can see analytics of their companies that include post analytics, user analytics, and business analytics.

Target Promotions:

Targeted_Promotions

Targeted Promotions

What are targeted promotions?
If you are looking for a larger reach, with a specific target audience, you can create a targeted promotion. You just choose up to 5 tags from the following categories: age, gender, location and interests - to create a specific target audience and select a post to boost.

Watch the following video to find out more about targeted promotions
